

## TECHNICAL DATA SHEET

# FLASH

### DESCRIPTION:

**FLASH** hard surface cleaner is a viscous green liquid containing a complex blend of cleaning detergents and sequestrants together with active ammonia. It contains no harsh abrasives and thereby cleans without scratching the surfaces.

### USES:

**FLASH** is the ideal cleaner for use in Hotels, Institutions, Hospitals, Restaurants, and Canteens.

**FLASH** can be used on all hard surfaces, baths, tiles, floors, plastic surfaces, oven tops, and kitchen tables, floors and walls.

### RECOMMENDATIONS:

Use **FLASH** undiluted for maximum efficiency and results on very dirty surfaces. A dilution of 1:2 with water is suitable for surfaces that are cleaned regularly. For light cleaning **FLASH** can be diluted up to 1:100 with water.
