

TECHNICAL DATA SHEET

MAX 4007

DESCRIPTION:

CF MAX 4007 is a general purpose cleaner and degreaser, formulated for the removal of oil, grease and other soils from all surfaces by manual application or through high pressure cleaners.

CF MAX 4007 is recommended for the cleaning of all heavy engineering equipment associated with the mining, transport, construction, timber, sugar and shipping industries. This includes the cleaning of axles, engines, rolling stock, trucks, tractors etc. CF MAX 4007 can be used as a general cleaner for workshop and garage floors, and is an excellent pre-spotter and traffic lane cleaner for carpets and upholstery.

APPLICATION:

- **For light duty cleaning: dilute 1:20 with water.**
- **For medium duty cleaning: dilute 1:10 with water.**
- **For heavy duty cleaning: dilute 1:5 with water.**

PRODUCT FEATURES:

- **MAX 4007 safe to use on all metal surfaces, as well as painted surfaces**
- **Can be used hot or cold**
- **Equally effective in hard or soft water**
- **Will reduce the risk of scale build-up in steam fed or hot water pressure washers in hard areas**
- **Its low foam properties make it especially suitable for use with pressure equipment**

PACKAGING:

- **25 litre containers**
- **210 litre drums**
