

TECHNICAL DATA SHEET

SPRAYKLEEN

DESCRIPTION:

A yellow/green general purpose liquid cleaner of the solvent detergent type, formulated to remove contaminants such as oil, grease and other soils encountered in workshops, auto valet, hospital, janitorial areas and workshops.

USES:

For the general cleaning of painted and unpainted surfaces soiled with grease, oil, fat and other soils on internal combustion engines, polyvinyl seat covers, head lining ceilings, walls, floors, panelyte, road transport tarpaulins and trucks.

METHOD OF APPLICATION:

SPRAYKLEEN as a diluted or undiluted cleaning compound is suitable for application by bush, spraying, mopping or immersion.

WORKING CONCENTRATIONS:

Light duty cleaning : 1 to 3% by volume of water.
Medium duty cleaning : 4 to 25% by volume of water.
Heavy duty cleaning : 26% by volume with water after undiluted.
SPRAYKLEEN is used in first application.

CAUTION:

Avoid prolonged contact with skin.
If slashed in eyes, flush with copious amounts of water.
