

TECHNICAL DATA SHEET

TANKWASH

HEAVY DUTY ALKALINE CLEANER

DESCRIPTION:

TANKWASH is a liquid alkaline cleaner containing powerful solvents and emulsifiers to remove most types of heavy soiling.

RECOMMENDATIONS:

FLOORS

Use neat on floors containing a heavy build-up of soil. Scrub and rinse with water.

MAINTENANCE CLEANING

Dilute 1 to 20 parts water, apply to floor, and allow 20 minutes contact time. Scrub and rinse. For lightly soiled floors a dilution of 1 to 100 will clean satisfactorily, for regular maintenance.

SCRUBBING MACHINES

Dilution 1 to 100. TANKWASH is not recommended for use through machines with bronze, copper or aluminium parts.

STOVES AND GRILLERS

Use undiluted.

Scrub lightly with abrasive pad and rinse.

FILTERS

Dilute 1 to 10 parts with water.

Immerse for 8 to 12 hours.

Rinse thoroughly.

PRECAUTIONS

TANKWASH is highly alkaline.

In case of contact, flush with cold water immediately.
