

Technical Data Sheet

TOP STRIP

DESCRIPTION

TOP STRIP is a liquid cleaner designed for stripping copolymer resin polish. It is available in variants with and without ammonia.

APPLICATION

Floors should be stripped with TOP STRIP when the application of polish no longer produces high lustre or when severe damage to the finish has occurred.

DIRECTIONS FOR USE

The recommended dilutions are based on the thickness of the coating to be removed.

Light Stripping - 1 : 10 (e.g. 1 L TOP STRIP to 9 L water)
Heavy Stripping - 1 : 3 (e.g. 1 L TOP STRIP to 2 L water)

METHOD:

- Apply TOP STRIP solution to floor.
- Allow to soak for 15 minutes.
- Remove old polish using a scrubbing machine with a clean black stripping pad.
- Rinse thoroughly with clean water, changing the water frequently.
- Allow to dry.
- Apply two to four coats of TOP COAT.

Benefits:

- Highly concentrated
- Effective
- Free-rinsing
- Easy to use
- Biodegradable

CONDITIONS TO AVOID

- Temperatures below 5°C and above 30°C
- Direct sunlight
- Acids, oxidizing agents, other detergents

HAZARDS

PRECAUTIONS

- Do not ingest
- Avoid contact with eyes, skin, and clothing
- Wear impervious gloves
- Keep out of reach of children, and away from food and food contact areas

APPROPRIATE PPE WHEN HANDLING PRODUCT

Respiratory protection: Avoid breathing vapours. In case of insufficient ventilation use suitable respiratory protection (e.g., Cartridge type)

Hand protection: Use impervious, chemical-resistant gloves (e.g., Nitrile, PVC)

Eye protection: Use safety goggles. Avoid direct contact.

Skin and body protection: Use protective clothing and barrier cream.

FIRST AID MEASURES

Inhalation: Move to fresh air. In case of discomfort, seek medical attention.

Skin contact: Flush with plenty of water. Remove contaminated clothing. Use a skin cleaner. In severe cases refer to a doctor.

Eye contact: Rinse immediately with plenty of water, and refer to a doctor.

Ingestion: Wash mouth with plenty of water. Do not induce vomiting. Refer immediately to a doctor.

Storage

The shelf life is 24 months for unopened containers stored under moderate temperature conditions. Store only in original containers. Keep container tightly closed in a dry and well-ventilated place. Containers that are opened must be carefully resealed and kept upright to prevent leakage. Store between 5°C and 30°C, away from direct sunlight. Do not store or use with the following product types: Acids, Oxidizing agents, Other detergents. Keep away from food and drink. Keep out of reach of children and pets.
