

TECHNICAL DATA SHEET

VELVA SOFT

FABRIC SOFTENER & CONDITIONER

DESCRIPTION:

VELVA SOFT is a highly effective cationic fabric softener, anti-static lubricant and finishing agent. It is specifically formulated for all commercial laundries, hotel laundries, napkin services etc. Wherever long lasting restoration of lubricity and softness to washable cottons and woollens is desired.

FEATURES:

- Restores softness and lubricity to fibres
- Lubricates fibres and reduces mechanical wear
- Increases flatwork ironer efficiency
- Pleasantly perfumed

APPLICATION:

For the best results, add 250ml to 500ml per 50kg load to the final rinse. Run the machine for 5 minutes before dumping.

PACKAGING:

VELVA SOFT is supplied in 5L and 25L plastic containers.
